 - Interview with Laura Shin, Fortune Magazine re: evolution of blockchain & Ripple update
- AO'G and Ryan Z met with [REDACTED] on 3/06 re: Ripple's position that XRP is not a security. Meeting went well; however, XRP certainly has some "securities-type" characteristics and we do need to hone our playbook / messaging
 - Next steps: Scheduling an "educational" meeting with XRP and MarComm teams this coming week on how to discuss XRP/RCL generally and in presentations, responses to inquiries, etc. (e.g., some language used in the XRP presentation at this week's bi-weekly meeting was not ideal).
